'Ayer's Pills

...are prepared from the active principles of Sarsaparilla, Stillingia, Yellow Dock, Mandrake, Prickly Ash, Poke Root, and Iodide of Potassium, by a process which we have carried to the highest degree of perfection. Each pill contains the full alterative power of the ingredients of which it is made. As a blood purifier, this compound is the most powerful that can be obtained. It is a safe and certain remedy for all the diseases for which it is recommended, and for all other diseases which require an alterative medicine. Its sugar coating renders it pleasant to take, and it is the cheapest blood medicine in the market. Being concentrated, it is the most economical. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by druggists everywhere.

Subjoined are the statements from those whose high character and responsibility render them worthy of confidence:

A FAMILY PHYSICIAN.

From Dr. D. W. Cartwright, of Natchez, Miss.

Your Pills are the prince of purgatives. Their sugar coating renders any unpalatable dose pleasant. They are, in each box very certain and efficacious in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find them beneficial when given upon the first very marked indeed. I have no hesitation in pronouncing them a special for the cure of diseases of the liver, and the best remedy I can prescribe to my patients.

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Evans, of St. Louis.

The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are valuable alterative medicines. So pronounced are their effects upon the disease of the liver, that they seem to work upon them alone. I have used them in cases of dyspepsia and scrofulous sores with them, which had resisted the ordinary medicines we commonly make use of, and have invariably found them to be effectual. It is indeed a pleasure to us to be able to say of a medicine, all the commendation it so richly deserves.

DYSENTERY — DIARRHŒA — RELAX.

From Dr. N. G. Grove, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them a prompt and efficient remedy, when given in small doses, for dysentery and diarrhœa. Their agreeable taste renders them very acceptable and convenient for the use of women and children.

INTERNAL OBSTRUCTION — WORMS — SUPPRESSION.

From Mrs. M. Stuart, who practices as a Physician and Midwife, Mobile, Ala.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretions, when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels of worms. They are, in much the best physic we have that I recommend to others.

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Young, of Memphis, Tennessee.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found as little success as I have, they should join me in proclaiming, for the benefit of the multitudes who suffer from that malady, which although bad enough in itself, is the fruitful source of others that are worse. I believe confidence to be essential to this liver, but your Pills affect that organ and to the disease."

HUMORS OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Enoch Hall, Philadelphia.

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them for years in my practice, and agree with your statements of their efficacy in all the above complaints, and carry off the impurities of stagnate in the blood, thereby clearing disease. They stimulate the organs of digestion, and infuse vitality and health into the system.

Such remedies as your pills are a national benefit, and I deserve great credit for them."

ON HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — FLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Read, Baltimore.

"Dear Dr. Ayer: I am pleased to tell you what remarkable cures I have met with in my practice from the use of your Pills. They have cured me of a dangerous headache. I have great dependence on an occasional cathartic in my daily contact with disease, and believing as I do that your Pills are the best I have ever used, I of course value them highly."

Most of the Pills in market contain Mercury, which, though a valuable remedy in skilful hands, is dangerous in the hands of the public generally. Those contain no mercury, or mineral substance whatever.

MISCELLANY.

A LOST INHERITANCE.

The Paris correspondent of the New York Express writes thus:

I have a story to relate to your readers this week, which, though occupying more space than I usually devote to incidents, conveys so excellent a moral, that I have yielded to the temptation to give it in full.

The train from Paris to Lyons stopped at the station of Joigny, a town upon the route, and again went on, after leaving a few passengers. The depot, for a moment crowded with railroad agents and lookers-on, was soon deserted by all but two individuals.

One of the two was an old man, dressed in the garb of a well-to-do farmer; the other, a youth of five and twenty, who seemed to be waiting for some one to come and meet him. To this personage the old man finally addressed himself. "May I presume, sir," said he, "to inquire if you are Clement B.?"

"Yes, my good man," replied the youth, with unhesitating ease of manner; "and I have no doubt you are Mr. Martin?"

"At your service, sir," returned the other.

"Well, Mr. Martin," continued Clement, in the same tone, "I began to imagine you intended to keep me waiting. That would not have been the best manner in which to have announced yourself into my good graces."

"Pile of sins," instead of replying, let his head fall upon his breast as if in dejection, and conducted the new comer towards a large old-fashioned carriage, to which a rough looking horse was harnessed.

"Where is your carriage, sir," said Martin, "if you will be good enough to get in, I will have the honor of conducting you to the Hermitage."

"But my carriage!" cried Clement. "Why, I shall be taken for a travelling pedlar!" Notwithstanding, he there seemed no means of avoiding it, he took his seat beside the old man, but not without expressions of disdain. In another moment the old man had seized the reins, and the horse started on a clumsy trot.

But a few days before, Mr. Clement B., who now put on so many grand airs, was a simple clerk in a crockery store in Paris, and possessed the reputation of being a quiet, unpretending little fellow. What, then, had brought about this sudden and radical transformation? He had become, since the previous day, each man, on [illegible] he may [illegible] be the possessor of an income of 20,000 francs a year quite sufficient to retain the modest demeanor of a poor clerk. On the previous day, while dusting the piles of crockery under his charge, a letter had arrived for him by the post, conveying to him the startling intelligence that one of his uncles, of whom he had often heard as a [illegible] eccentric, and very wealthy old man, but whom he had never seen, had just died at his chateau in Burgundy, leaving his nephew, Clement, sole legatee of his estates, to the exclusion of many other heirs. The letter was from a notary of the province, who desired him to leave Paris immediately for Joigny, the town near which his uncle had resided, where he would be met by Martin, an old confidential servant of the defunct, and conducted from the railroad to the [illegible] age," the name which the deceased had given his chateau and estate, which constituted the main portion of his legacy. The young man, almost driven out of his senses by such an unexpected stroke of fortune, hastened to obey the notary's directions, and, upon his arrival at Joigny, joined old Martin as we have seen.

On joining the queer vehicle, in which our hero had so contemptuously taken a place, unlike a rich of several miles, the occupants arrived at their destination. Martin offered the honors of the Hermitage to the new proprietor, called all the servants and introduced them to their new master, and then conducted the latter to his apartments.

"This was the looping chamber of your uncle," said Martin, as they entered a vast apartment, furnished in old-fashioned style. "It was in this room that he died, ten days ago."

But the man, how, instead of evincing any emotion, [illegible] shown the chamber of his benefactor, threw upon all around him a look of scorn, and cried:—"Upon my word, I can't say I think much of the old boy's taste in. I never saw such [illegible] so frightfully ugly in all my life!"

"Notwithstanding, sir," replied Martin, "it is the best chest in here; and if you cannot content yourself, I do not really know where you will find other lodgings."

"We live here! You don't imagine I am such a donkey, I hope! For us young fellows, my friend, Paris is the only place; and I shall sell this old crockery at once, and be off."

"Sell the Hermitage, your [illegible] place of residence! Impossible! And we were also hoped around our days under this roof—what is to become of us?"

Mr. Martin," returned the young man, "if we have none of your complaints, I beg. Get us some dinner, and afterward you will drive me to my notary."

After eating what a hearty appetite, he found the meats insipid and the wines sour, the legatee, still accompanied by Martin, re-entered the old carriage, and the two again started off.

"If I am not mistaken, observed Mr. Clement, after an hour's ride, we passed this spot this morning, and that"—pointing to a building on the railroad depot. "Do we take the same road?"

"Yes, sir, [illegible] sir," responded his companion, speaking very gravely, and in a manner which caused the young man to tremble in spite of himself. "I, sir, am your uncle, and, happily, I am not yet dead." Having heard good accounts of your conduct, I had resolved to make you heir of all that I possess; but before doing so, I wished to know whether you were really deserving of my generosity, and I had recourse to a stratagem, which has thoroughly exposed your true character to me. Good bye, Mr. Clement. Return to your shop, and remember that your arrogance and ingratitude have lost you that which will never again be placed within your reach."

The old man then gave his foolish nephew a few hundred francs to indemnify the expense of his trip, took leave of him at the door of the depot, and returned, alone. The feelings of the youth may readily be imagined, but as the yellow-covered novels say, "they cannot be described." I think this true story is an apt illustration of the maxim—"Never halloo until you are out of the woods."

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeit, Erasures, Printing or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GAINS, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assistor of the U. S. Mint; Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, New York, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$15 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$15 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb. that will not fade in many years.

All the most Valuable Records should always be printed or written on this paper, as the [illegible] inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the [illegible] of the climate does not injure it,—the properties in [illegible] the same as any other establishment in Maine. [illegible] Those who wish to purchase a Carriage, or Stock, will please give me a call.

Hancock Bank.

THE undersigned having been appointed Receivers to the Hancock Bank, of Ellsworth, for the County of Hancock, and State of Maine, by the Hon. Jonas Cutting, one of the Justices of the Supreme Judicial Court, and having been duly qualified as such, hereby give public notice that eight months from the 26th day of November last, will be allowed to the creditors, and all persons interested, to present their claims for allowance; and the Banking Room of said Bank will be open for that purpose every Wednesday and Saturday, from 10 to 12 o'clock A. M., and from 1 to 3 o'clock P. M., until notice of a change shall be advertised. ASA CRABTREE,

HATCH MALCOMBER,

ARNO WISWELL.

Ellsworth, Dec. 3, 1857 3aw6w[illegible]

To the Honorable Senate and House of Representatives, in Legislature assembled.

THE undersigned, inhabitants of the town of Greenfield and Township No. 1, in the County of Hancock, respectfully represent, that they suffer great inconvenience by reason of the distance they are compelled to travel to do all their County business; that many, calling by any practicable road have access to the [illegible] without travelling forty miles in the County of Penobscot, the usually traveled road for that purpose, passing through the City of Bangor. They further represent, that three separate Incorporated towns or organized plantations, adjoining their town on the south or on the east, and that the nature of the country is such, that it will be many years before there will be any highways, leading from their town to Ellsworth, more direct than there is now travelling. They therefore pray that their said town may be set off from the County of Hancock and annexed to the County of Penobscot.

B. C. WHEELER,

Greenfield, Oct. 22, 1857 and fifty-six others.

STATE OF MAINE.

In SENATE, Jan. 29, 1858.

On the Petition aforesaid, *Ordered*—That the Petitioners cause an attested copy of the Petition with this order thereon, to be inserted two weeks successively in the Ellsworth American, a weekly paper printed at Ellsworth, in the County of Hancock, and two to days in the Bangor Daily Whig and Courier, a daily paper printed at Bangor, in the County of Penobscot, the last insertion respectively, to be six days at least before the twenty-fifth day of February next, that all persons interested may then appear and show cause, if any they have, why the prayer of said Petitioners should not be granted. And it is further ordered, that the selectmen of the several towns in the County of Hancock, and the assessors of plantations, adjoining their town on the south or on the east, be notified to be and appear at said session, then and there to show cause, if any they have, why township No. 2, North Division, in said County of Hancock, should not be annexed to Penobscot; if such is shown to be the wish of its inhabitants.

Read and accepted—Sent down for concurrence. JOSEPH B. HALL, Secretary.

In House of Representatives, Jan. 30, 1858.

Read and concurred.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U.S. Patent Office, Washington under Act of 1837.)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an active practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on the most reasonable terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington without delay.

This Agency is not only the largest in New England, but through it inventors have more chance for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered in the same city elsewhere. The testimonials below, given from the most eminent in the subject, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has an abundant reason to believe, and can prove, that in no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his Meade Brothers' extensive and skillful photographers, New York, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$15 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$15 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb. that will not fade in many years.

All the most Valuable Records should always be printed or written on this paper, as the [illegible] inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the [illegible] of the climate does not injure it,—the properties in [illegible] the same as any other establishment in Maine. [illegible] Those who wish to purchase a Carriage, or Stock, will please give me a call.

The Double Game on Kansas.

The correspondent of the New York Times, writes that a double game, entirely worthy of the administration, is being played on the Kansas question. "The President is constantly assuring the Northern Democrats privately that he knows the Free State Legislature to be returned elected. Calhoun, who ostentatiously declares that he has not seen the President, is constantly assuring the Southern men that in any event the Pro-Slavery men will have the control of the State. The game of the Locomptonites in the Senate is to stifle an investigation of the frauds, and so they voted down the Douglas resolution, lest it might be rendered impossible for anybody to countenance them. They are trying to keep matters straight till they have got every Democrat committed that they possibly can; then, if it is found absolutely necessary, in order to gain the measure in the Senate, Calhoun will return a Free State Legislature, although he has said that he will make no returns till after Kansas shall have been admitted; but it is intended still to return the Pro-slavery State ticket so that the Governor can veto any legislative act calling a new Convention. Calhoun yesterday, in effect, proposed to return the Free State Legislature if Harris would withdraw his resolution, which he declined."

It is stated that Gov. Denver has forwarded the affidavits of the three judges of election at Delaware Crossing, certifying that only forty-three votes had been cast at that precinct, and that Calhoun has admitted that the Free State men have carried the *Legislature*.

Railroad to the Aroostook.

The subject of opening a railroad to the Aroostook, and thus promoting the sale and settlement of the public lands of Maine, and giving a new impulse to the business of the whole State, is now attracting a great degree of attention; and energetic measures are about to be taken to secure an end so desirable to every citizen.

The people of the central and western parts of the State are becoming strongly impressed with the wisdom and importance of the measure. It is felt and acknowledged to be a great State enterprise, and as such, they are willing to take the most effectual means of accomplishing it.

A large meeting was held at Augusta last week, composed of gentlemen of influence from all sections of the State, and active measures were inaugurated for bringing the subject before the Legislature in a manner to secure practical results. That the State must aid in the construction of the road is evident, if it is to be built within any reasonable time. That the State ought to aid in its construction is equally evident—for, more than all other measures which have yet been taken, will it give value to the public domain.

In this view, it is proposed to take the sense of the people at once, upon the subject. The Legislature is asked to present to the people the question of such a constitutional amendment as will enable the credit of the State to be loaned, to a moderate extent, for the construction of a railroad to help settling lands.—This is the proper method of bringing the question to a practical solution. Let the people say whether they will have such a road or not. Let them say whether the resources and benefits of our public domain shall be diverted to the British Provinces, or whether they will have them conduce to the wealth and prosperity of Maine.

To bring the subject before the Legislature in a proper manner, the meeting at Augusta organized a plan for circulating petitions throughout the State, for signature, asking the Legislature to take proper measures for the end in view.

An Executive committee was chosen a part of whose duty it is to circulate widely the blank forms of petition; and this committee will also circulate the excellent Memorial of the Maine State Agricultural Society in which the subject of the settlement of our public lands is so ably presented. The memorial itself we intend to publish, in whole or in part, as soon as we can get space.

In the mean time we commend this important subject to the favorable consideration of the people. Its benefits are to be felt by every man who desires to live in our State,—and every man should therefore take a personal interest therein.

MEMORIAL OF THE STATE AGRICULTURAL SOCIETY. We are indebted to John A. Poor, Esq., for a copy of this interesting and valuable memorial three thousand copies of which have just been printed by order of the Legislature. The Memorial has reference to the adoption of "measures for the settlement and sale of the Public Lands of Maine." It was prepared at the request of the State Agricultural Society, and it is replete with important statistical facts and valuable suggestions. We shall endeavor to publish a part or the whole of that document.

It is stated that Generals Comonfort and Garona Conde were among the passengers by the "Tennessee," at New Orleans from Vera Cruz.

Correspondence of Whig & Courier.

Letter from Minnesota.

St. Paul, Feb. 1, 1858.

Messrs Editors.—It is now the first of February, which here in Minnesota is denominated the "mid winter month," and so far through the winter the weather has been calm, mild, gentle and pleasant—the thermometer standing on an average at about 30 degrees above zero. As yet we have had but little snow, and the relics of what we have had now lie scattered about the city and country. The harsh, rattling noise of carriage wheels greatly predominates over the merry, gladsome jingle of the sleigh bells, and instead of the clean, snow-covered streets and sidewalks, which usually prevail in this city in winter, the whole city is one mass of filth and mud. And here, while on this subject, I would beg leave to protest, in behalf of the people of Minnesota, against the erroneous ideas seemingly entertained by the people North and East—and especially by the press—upon the subject of Minnesota weather. Paragraphs are flying the rounds of the eastern press, pretending to describe the "extreme cold now prevailing in Minnesota," but which are as false as they are malicious. Last winter while in Bangor, I noticed just such paragraphs in the eastern papers, but since I have been here I have been undeceived. To all those who imagine us poor Minnesotians hovering around our hearth-stones, warming our chilled bodies and half frozen limbs, or what is worse, floundering amid six feet snow drifts, I would say, think of us only as enjoying and revelling in the most beautiful winter weather with which God ever saw fit to bless the earth and mankind.

The State Legislature is still in session in this city, but with the exception of passing a few ferry charters, have done nothing of consequence since it convened last December.—The members of the Legislature are a hard working set. Their daily duties, consist in meeting in the morning at 10 o'clock, doing nothing, and adjourning at 1 o'clock P. M. till 10 o'clock the next day—there being no afternoon session. And for all this they only receive their regular three dollars per day! A truly hard case, is it not? In the meantime they dare not pass any laws of importance until the Territory is admitted into the Union as a State, for they well know that it would be declared illegal and unconstitutional by any judicial tribunal in the country. Thus they are situated,—most emphatically in a "fix"—knowing not what to do nor where to turn in this "the hour of their dire needs." They hope and pray for the speedy admission of Minnesota, and at the same time curse Buchanan and the south for delaying their deliverance. And all this trouble is occasioned by the jealousy of the south and the duplicity of its ready tool—Buchanan. Oh Democracy! Democracy! what will thy avariciousness lead thee to do next. Would'st thou offer up Minnesota as a sacrifice to jealousy and revenge? Indeed, from the latest reports it would seem as though the democrats were bent on making Minnesota their instrument for the purpose of smuggling in stolen and forbidden goods.

A duel was lately fought near this city between the celebrated Chippeway chief, Hole-in-the-Day, and a half-breed trader by the name of Giggy. The weapons were Colt's revolvers—distance forty paces. At the first fire Giggy was wounded in the left side; at the second, through the right side; at the third, though so badly wounded that he could scarcely stand, he managed to shoot Hole-in-the-Day through the heart. Cause of the duel and death of Hole-in-the-Day—rum and an old quarrel.

Yours, &c. H.

[Hole-in-the-Day is since reported alive and kicking. His hole in the heart didn't seem to hurt him.

Rev. Beverly Waugh, D. D., whose death has been announced, was the senior Bishop of the Methodist Episcopal Church. The Bishop's age was about 70. He entered the Methodist ministry in the year 1809, and has been in active service for a period of forty-six years. In 1828, he was elected to fill the office of General Book Agent of the Church in New York, and continued to perform the duties of that place until his election to the Bishopric in 1836. He has resided in Baltimore for a number of years, and died there from an attack of erysipelas. By his death, Rev. Thomas A. Morris, D. D., becomes senior Bishop of the Methodist Episcopal Church.

THE "GIFT BOOK PAPER." The Boston Journal learns from reliable sources, that the $60,000, belonging to the Western railroad sinking fund, which was loaned to Mr. Samuel Lawrence, will undoubtedly be paid in full. The money was borrowed by Mr. Lawrence, with the approval of the Bay State and Middlesex Mills. He gave his notes as treasurer for the amount, and the debt is recognized as binding upon the two corporations.

SALE OF A VALUABLE HORSE.—Mr. Benjamin Thurston, sadlord of the Washington House in Lowell, Mass., sold a bay gelding to a New Yorker on Monday, for $2000. The animal was about seven years old, and weighed 975 pounds, and he has trotted a mile in 2.32. He was carried to Lowell from New Hampshire, about two years since, and was then sold for $275. Mr. Thurston paid about $700 for the horse.

PERSECUTION IN MADAGASCAR.—The latest intelligence is eminently sad and disheartening. A persecution followed the expulsion of the Frenchmen in July last, which has proved to be uncommonly severe. Thirteen Christians have been put to death; more than fifty have been subjected to the ordeal of the "tanguen" (poison water,) with fatal results in the cases of eight; more than fifty have been bound in chains, two having died; and many others are reduced to slavery. There seems to be no hope, therefore, that those who have embraced the doctrines of the Bible will be tolerated during the reign of the present Queen. Whether her son will escape a death of violence, he is known to be friendly to the "new way," is quite doubtful.

Barque Sallote, (of Belfast) Swasey, at Portland from Cardenas, in beating up the harbor, missed stays, and ran into Lowell's steamship wharf, carrying away bowsprit, head gear and stern starboard boat.

ARRIVALS AND DEPARTURES FOR 1857—IMPORTATIONS &c.—The following is an abstract of the Harbor Master's Report for 1857:

From April 7th, to December 8th, the whole number of arrivals were 2077, clearances 2066. Steamer Daniel Webster made 92 trips to Portland; the M. Sanford made 52 to Boston.

The importations to this port, Foreign and Coastwise were:—1895 Hhds. of Molasses; 56,946 bbls of Flour; 147,051 bushels of Corn; 1663 bbls of Pork; 7734 tons of Coal; 29318 bushels of Salt; 1290 tons of Iron.

In addition to the above there are large amounts of flour pork &c., landed from steamers, of which it is not practicable to get an account.

FIRE. On Saturday evening a large wooden building on Centre street, owned by Mr. Chapin Humphrey, and occupied by him as an establishment for pulling and packing wool, was destroyed by fire. The progress of the fire was so rapid that the whole building was in flames before the engines could arrive.—There was a large quantity of wool and skins in the building, a small portion of which only was saved. The loss is estimated at about $5000. Insurance, $800 on the building and $2000 on the stock.

The fire department worked with its accustomed promptitude and energy, notwithstanding the extreme coldness of the weather, the mercury being nearly down to zero. We regret to say that one or two members of the department were injured by the falling of portions of the building. Mr. William H. Hooper, a member of the Hook-and-Ladder Company, was knocked down by a ladder which was thrown upon him by the falling of the front wall of the building. He received some severe wounds upon his head.

Supreme Judicial Court—Criminal Term.

Appleton J., presiding.

February 13.

The Grand Jury came in this morning, and were discharged. They reported seven bills in addition to those published.

The trial of Bulger was resumed. Verdict, guilty of larceny, and not of burglary.

State vs. George Kinney, Brewer—larceny of a horse from the barn of F. J. Parker.—Verdict not rendered when Court adjourned. Brown for Dft.

State vs. Dennis Shaw and Timothy Mahoney—for entering house of John G. Bowen, and committing a larceny. The County Attorney *nol prosd* as to entering, and the defendants retracted their plea of not guilty, and plead guilty.

Knowles for Dft.

State vs Dennis Shaw and Timothy Mahoney—for entering house of N. H. Colton, and committing a larceny. The same disposition was made as in previous case. Knowles for Dft.

Benjamin F. Inman, E. W. Stinson and Morris Murray, were brought into Court and discharged, no bills against them having been found.

State vs. Patrick Murphy—arson—on trial when Court adjourned.

Knowles for Dft.

SUPREME COURT.—The Grand Jury reported finally on Saturday morning. The indictments found at this term are more numerous than usual, and have been, so far as was proper, reported in our regular summary of proceedings. In the case of young Crosby, which attracted so much attention in our city last fall, the Grand Jury found no bill.

FATHER SAWYER.—We are gratified to learn that a bounty land warrant for 160 acres has at last been obtained for our venerable fellow citizen, Father Sawyer. He served in the revolutionary war, but has outlived all contemporaneous evidence of services, so far as personal testimony was concerned; and no documentary evidence could be found until very recently. We believe the present success is due to the efforts of Mr. S. P. Bickney of Washington.

An extensive revival under the labors of Rev. C. F. Tupper of the M. E. Church in Rockland, is now in progress. His congregation has nearly doubled within six months, and seventy persons are about to join his Church.

FIRE IN PORTLAND.—The alarm of fire about 2 1-2 o'clock this morning, was occasioned by the burning of the building occupied by A. P. Stinson as a clothing store, in Middle street.—*Argus 12th.*

FIRE AT GARDINER.—An unoccupied house on North street, belonging to Daniel Starbird, was destroyed by fire yesterday morning, and the barn connected with it was demolished to prevent the fire from communicating to a neighboring dwelling. Loss stated by the owner at about $600. Insured for $460 in the Lincoln Company, Bath. The fire, without doubt, was purposely set.—*Journal 11th.*

On Friday last, the store of John M. Fuller, Esq., in Tennant's Harbor, St. George, was broken into by three men and about three hundred dollars worth of goods stolen. The names of the thieves are Daniel Wall, Daniel S. Hinkley, Geo. W. Philips, who have been arrested by Constable Demuth and lodged in Wiscasset Jail to wait their trial.—*Thomaston Journal.*

A little girl on Water street was sliding down hill one day last week, and ran against an ox sled and broke her thigh. It was her first sliding for the winter.—*Ellsworth Am.*

As Capt. Joseph Wescott, of Blashill, on Thursday of last week, was riding down a steep hill, his horse became restive and unmanageable, running away with, and overturning the carriage. His wife and her sister were thrown out and one of them had a thigh, and the other an arm broken.—*Ellsworth Am.*

The employees on the Kennebec Railroad have presented Mr. Isaac Lincoln, who recently lost his house by fire, $150. Friends in Skowhegan and Bath, also made up a purse of $300 additional.

OLD TIME.—The editor of the Dover Observer has in his possession a "bull's-eye" watch, supposed to be at least 160 years old. It appears to have been an heir-loom of the Eden family. Old Peter, we suppose, used to make his devils come to time by it.

They have six or eight inches of snow at Ellsworth,—or had, last week.

DROWNED.—A deaf and dumb man, by the name of Fullerton, broke through the ice on Union river, some two or three miles below here, on Monday last, and was drowned.—*Ellsworth Am.*

A "calico ball" at Ellsworth on Thursday evening produced $176 for the poor. "An excellent style of prints."

Dr. Amos Libbey, of Auson, had one of his legs broken above the ankle, on Wednesday last. The accident occurred in a friendly scuffle.—*Advocate.*

Wooing in Nicaragua in Olden Times.

Mr. Helps in his Spanish Conquest of America gives the following account of the way in which the Nicaraguan damsels were wooed and won in the early times. We think that some Yankee girls would make no objection to lovers of the same kind:

"A young Nicaraguan beauty would have many favored lovers; but after a time, bethinking her that it would be well to marry and settle, she would ask her father to give her a portion of land near to where he lived. When he had appointed what land she should have, she would call her lovers together, and tell them that she wished to marry, and to take one of them for her husband; that she did not possess a house; but that she desired that they would build her one on the land which her father had given her. The prudent damsel did not hesitate to enter into details as to the kind of a house she wished to have built, and would add that, if they loved her well, the house would be built by such a day, giving them a month or six weeks to complete it in. To one she would give the charge of furnishing the wood-work; to another to find the canes which were to form the walls; to another to provide the cordage; to another to gather the straw for the roof; to another to get deer and pigs for her; to another to procure the dried fish to stock the house; to another to collect maize. This work was usually put in hand with the utmost promptitude, nor was the least thing dispensed with that she had asked for. On the contrary, anxious to show their zeal to the lady of their affections, they sometimes brought double of what had been demanded. Their friends and relations aided them, for it was always thought a great honor to be the successful competitor, and that it would reflect honor upon his kindred.

We may easily imagine what efforts were made by the contending parties to prompte their several suits, how her relatives were honored and flattered, how her companions were waylaid, and what rules were conveyed to her ears of the dangers and labors that were undertaken for her sake. The pomp of courtship could never have been brought so decidedly before the eyes of the world as in the pleasant province of Nicaragua.

At last the house was ready. The provisions and the furniture were put in it, and the hearts of the overworked competitors beat rapidly as the fortunate or the fatal moment approached.

A solemn feast was held in the new house. When supper was concluded, the damsel rose, and made a short but gracious speech. She first thanked them all heartily for the labor they had undergone on her behalf. She then said that she wished it was in her power to make so many women that she could provide a wife for each of her suitors. In times past they have seen what a loving mistress she has been to each of them; but now she was going to be married, and to belong to one alone—and this is the one, she said; whereupon she took the chosen suitor by the hand, and retired from the apartment. His choice having been declared, the disappointed suitors, and their respective factions went away amicably, and concluded the feast by dancing and drinking, until the senses of most of them were overcome.

As to the bride, she was henceforth utterly cold to all her former lovers, and showed herself to be a true wife. The disappointed suitors, for the most part, bore their disappointment meekly, but sometimes it happened that on the morning after the marriage one or two of them were found hanging, from a tree, and there the bodies remained a ghastly spectacle of honor, to show the world how the fair Nicaraguan had been loved and lost."

LEGISLATURE OF MAINE.

THURSDAY, Feb. 11.

SENATE.—*Passed to be engrossed*—Bill to incorporate the Trustees of Presque Isle Academy.

Report of the Joint Select Committee on the petition of Seth Norcross, preferring certain charges against the County Attorney of Franklin County, came from the House accepted.

The Committee not only exonerate Mr. Currier from all official wrong-doing, but deem it their duty to say that they perceive nothing in all his conduct in this transaction worthy the slightest censure.

The report was accepted in concurrence.

Order of notice on petition of the inhabitants of Glenburn to be annexed Levant.

Mr. Stinchfield presented the petition of Wm. R. Ayer and 105 others, for a Railroad from Milford to Aroostook river.

HOUSE.—*Petitions presented*—By Mr. Moor of Ellsworth, petition of Arno Wiswell and others to be incorporated as a Gas Company; by Mr. Pattee of Fort Fairfield, petition of Lewis Conner and other inhabitants of No. 18, R. 3, for legislation that will protect the interest of settlers in said town; by Mr. Snow of Atkinson, petition of Trustees of Foxcroft Academy for aid from State; by Mr. Woodbury of Houlton, petition of J. C. Carpenter and others of Aroostook County for division of the county; petition of G. E. Page for same; by Mr. Nutting of Paxamus, petition of A. J. Stevens and others for aid in constructing of a road from Greenville to Chesuncook Lake; by Mr. Marshall of Raleigh, petition of Alfred W. Johnson of Bethel for an act to enable him to redeem from the State 960 undivided half of township No. 4, 9th Range.

Order of notice on petition of certain inhabitants of Levant to be set off from said town to Kendusking.

On motion of Mr. Ranney of Winn,

Ordered, That the Land Agent be requested at his earliest convenience to report to this House, the amount of timber and grass sold from lands appropriated by this State for the support of schools in the different townships in the county of Penobscot, since the year 1840, together with the amount, standing to the credit of each township together with the expense of letting of the same.

Mr. Mayo from the Committee on Railroads, Ways and Bridges, reported leave to withdraw on petition of Wm. Lander for a better pass through the bridge at Bangor.

On motion of Mr. Woodman of Bucksport, the House proceeded to the consideration of the motion to indefinitely postpone the bill relating to marriage and its solemnization.

The motion to postpone was rejected—56 to 63.

Mr. Merceyes of Eden, moved to amend so as to provide that the Clerk should not issue the certificate of intentions until ten days after application therefor—and supported the motion in a few brief remarks after some slight debate, and several motions to lay upon the table and to adjourn had been rejected,

Mr. Bowen of Portland, moved the previous question, and the call was seconded by the House. The pending amendment was then adopted—67 to 47.

HORRIBLE BRUTALITY. The St. Louis Democrat of the 1st publishes the following:

On Saturday evening last, officer Quigley arrested on the levee a naked negro girl, about twenty years of age. Her appearance gave evidence that she had been badly beaten. Her back was covered with fresh and bloody stripes, into which salt and flour had been sprinkled to dry them up and prevent suppuration. The officer took her to the police office, where she was furnished with an old blanket to cover her nakedness and wounds. She belonged to Mrs. L. Peters. She said she had been terribly whipped, and that she was trying to escape from her cruel mistress.

This is the same girl whose brutal treatment was recently made the subject of a judicial investigation before the criminal court of this city, which resulted in a verdict against Mr. and Mrs. Peters, of $1000 fine and one year's imprisonment for each, from which judgment they appealed, and are now under bonds of $2000 each. Since that time they have continued to abuse the girl with as much barbarity as before. The neighbors say that to keep outsiders from witnessing further cruelties, the cracks of the fence surrounding the yard have been nailed up, and that the girl is now taken down into the cellar out of sight, where she is subjected to punishments and torments equal to any she has previously endured.

SPIRIT RAPPING IN PUBLIC.

Mrs. Ada L. Coan, ...Test Medium,

Of New York, will hold two Public Meetings at CITY HALL, Bangor, on

Tuesday and Wednesday Evenings,

Feb. 16th and 17th. Test Questions will be answered by loud rappings, that can be heard in all parts of the Hall. The manifestations will take place in the light. Admission 15 cents.—To commence at 7½ o'clock. feb13 4t

We call the attention of our readers to Messrs. Stickney & Rogers advertisement, in another column. They have just purchased their first Spring Stock of Dry Goods, and, to judge from the number of customers to be seen at all times in their spacious store, we should think they must be offering unusual inducements to cash customers. Give them a call. feb11 2w

Dr. P. P. Quimby,

Of Belfast, will remain in this city, on professional business, for the remainder of the winter, and attend to such persons as may desire his services. He has taken rooms at the Bell Tavern House.

Dr. Q. will attend to patients at his Rooms on Monday, Wednesday and Friday—and will visit patients at their residences, on Tuesday, Thursday and Saturday.

Those calling upon the Doctor should understand that he can form no reliable opinion except by an examination of the case; and the examination is describing the feelings of the patient and declaring the disease. Prior conversation with friends is of no value, and only occupies time which is valuable. 4 dec16tf

ARRIVAL OF THE

NIAGARA,

AT HALIFAX.

HALIFAX, Feb. 14.

The Steamer Niagara, Miller, left Liverpool about 10 o'clock on the morning of the 30th, and arrived at Halifax at 7½ on the morning of Sunday, 14th.

Among the passengers are His Excellency the Rt. Hon. the Earl of Mulgrave, newly appointed Governor of Nova Scotia, with family and suite.

The Niagara experienced heavy weather during the whole passage. She passed Steamship Africa off Holyhead, at 8½ P. M.

The Baltic arrived at Liverpool on the afternoon of the 28th ult, Propellor New York arrived at Greenock same afternoon.

South Star for New York, left Southampton 27th

Parliament would assemble on the fourth of February. Palmerston had as usual issued circulars soliciting early attendance of supporters of the Government, as matters of considerable importance will come under discussion.

Numerous deputations waited on Palmerston to urge the immediate abolition of church rates. They met with such lukewarm encouragement that they adopted indignant resolutions, and pledged themselves to press forward an independent bill on the subject.

Prince Frederick William of Prussia had been invested with the order of the Garter.

The Leviathan had been pushed twenty-five feet off the ends of launching ways, and her cradles were being removed. She had over 17 feet of water under her, and was expected to float the 30th or 31st.

Resolutions were pending before the General Court of the East India Company deprecating the proposed change in the Government of India, and were carried by almost a unanimous vote. The London Advertiser asserts that the India Bill will not be half so sweeping as generally believed, and as at first intended. The Ministers will consent to modifications in the measure in its progress through Parliament, and it will not pass this year. If not withdrawn it will be shelved at the end of the session.

Heavy drafts of troops were under orders to embark for India.

The Bank of England reduced the rate of discount on the 29th to 4 per cent. The reduction produced little or no effect on the money market or stock exchange. The Times remarks upon the subject that there is a prospect that the tension may be towards increased ease in the money market. For the past week or two applications at the Bank for discount have almost entirely ceased, and although the affairs ion led to little demand, they are still likely to be only of very moderate character, since the minimum rate in open market has for some days not been higher than 3 per cent, while in stock exchange supply is abundant at 2 per cent. The interest on deposits allowed by discount houses has been reduced to 2½ per cent. The Daily News says some persons are disposed to look for further reductions in bank minimum.

India.

The correspondence from Calcutta to Dec. 24th adds nothing of importance to the telegraphic dispatches which anticipate the mail.

The Times' correspondent gives a circumstantial account of the Windham affair. The facts do not differ from those already before the public. The scenes after Windhams defeat are said to have been fearful. Hospitals were crowded to suffocation. The enemy directed their fire spirally upon them, and it was not till Sir Colin Campbell returned, and with a dozen haughty words, brought every man to his place, that order was restored.

LATER. London, Friday night. The Government has received telegraph from Malta announcing the arrival of Bombay dates to 2nd January at Suez. News of little importance. Sir Colin Campbell was still at Cawnpore at latest advices, but shortly expected to move westward with a powerful force.

Sir James Outram at Alumbagh attacked the enemy on the 22d of Dec., capturing four guns with trifling loss.

General Roberts was appointed to command a field force, which is assembling at Deesa, and which is to march on to Nusseerabad.

No fresh disturbances in any part of Deccan and Central India. Punjaub tranquil.

China.

The correspondent of the Times writing from Canton River under date of Dec. 16th, says that Yeh had returned an insolent answer to the ultimatum of the English and French plenipotentiaries, and that the two forces would in a few days attack Canton.

Elji n's demand was of the most temperate character. He asked for no more than that the treaty should be carried out, that Canton should be put upon the same footing as other treaty ports, its gates opened to commerce, compensation given for damages done to British merchants, and occupation of Honan acquiesced in as material guarantee until all matters are settled.

A letter from Hong Kong says Yeh's answer to Elgin was couched in a sarcastic vein, telling his lordship that the question of treatment of strangers at Canton has been settled by decree of the Emperor, that Sir George Bonham was made Baronet for respecting that decree, and recommends Elgin to follow his example, and that as to compensation, Yeh has demanded on the English Government for losses suffered by the Chinese.

A few days before this answer, Reed, American Commissioner, solicited an interview in the city. Yeh replied that he would meet him outside the city, but that no barbarian should set foot within the limits of Canton.

The Paris Pays publishes accounts from Cochin China and Tonquin to the 18th Nov. The persecution of Christians continued with unparalleled violence. The country was also in a state of the greatest confusion.

France.

The army of Lino is to be divided under five great commands, confided to Marshals Castellane, Bosquet, Pellissier, Canrobert and Vaillant, and having their general quarters at Perpignan, Nancy, Lyons, Toulouse and Tours.

Addresses from some of the regiments to the Emperor, were worded in such strong language as to attract much attention. The Zouaves almost regret that they had not an opportunity to manifest their zeal in a striking manner; and the address of the 82d regiment contains the following sentence: "And if your Majesty wants soldiers to reach those men even in their haunts, we humbly pray you to design the 82d regiment as part of the advance guard of this army."

Addresses from other regiments appear to have been worded still stronger, for the Moniteur has omitted some of the paragraphs.

It is stated that Ormisi was at Sentyard in when the Emperor was there last year, but he remained two or three other Italians were expelled, who abandoned provisions and forage, and destroyed the intention of the Government to pass that via Fort Larmuie.

down all religious controversy in the French press.

A Brussels paper affirms that the French foreign minister addressed notes to British, Belgian, Swiss and Sardinian governments, demanding certain measures which may prevent a renewed attempt at assassination.

LATER. The correspondent of the Times reports that no further measures of suppression will be directed against the press.

Addresses from the army continue to appear in Moniteur. Many call violently for leave to pursue conspirators to their haunts.

Italy.

A dispatch from Naples announces the death of Signor Lablache, at that place, on the 23d of January.

A plot against the life of the king of Naples has been discovered. Ten persons, Frenchmen, are said to have landed at Naples, to carry out the design. A conspiracy was also discovered at Ancoli, the objects of which were unknown.

It is stated that the Rothschilds were negotiating a loan for the Papal government.

An insurrectionary movement in Rome, is said to have been planned for the 15th of Jan., but the police frustrated it.

Austria.

The Vienna Journal says that the National Bank contains a greater amount of specie, by three millions florins, than ever before.

Austria consents that the act, of the Riverine States, relative to the free navigation of the Danube, shall be submitted to the Paris Conference.

Denmark.

A new Project from Denmark having for its object to place the Duchies in an exceptional position in Danish monarchy, has been taken to Frankfort, but members of the Diet declared against it, as insufficient.

Russia.

It is said that Russia intends to restore all marine stations on the Circassian coast, but on a new system which will evade the Paris treaty. A new Sebastopol is also in contemplation.

Turkey.

It is asserted that the British government has agreed to pay pecuniary indemnity to the Porte for the occupation of the Island of Perim, the amount to be fixed amicably between the two powers without the intervention of any other.

Serious disturbances are said to have broken out in Boania, and a force of 3000 men have been sent to suppress them.

Very Latest by Telegraph from Liverpool

London, Saturday A. M. Times city article—Funds are moderately steady to-day, but the market is without animation, and manifestations encouraged in French official and military quarters, would probably have led to further depression but for investments on the part of bankers and others who in present state of discount market are unable to employ their money except in government stocks or exchequer bills.

In stock exchange loans are obtainable at from 1½ to 2 per cent, and in discount market exceptional transactions have taken place below 3 per cent, London and country bank have to-day decided to take in no fresh deposits at a lighter rate at 2 per cent. Union bank has also reduced allowance to 2½ per cent. Nearly £90,000 in gold was taken to bank to day.

In foreign exchanges this afternoon rates were about the same as last past.

India.

India house despatch. The following despatch was received late last night.

Bombay, Jan. 9th.—Sir J. Outram defeated the rebels near Alumbagh on Dec. 22d, and took four guns. His own loss was trifling.

Sir Colin Campbell on Dec. 12th advanced towards Furruckabad, and intended to proceed thence to Agra. Col. Seaton's column re-occupied Myrpoore, on the 27th Dec., after defeating the rebels and taking six guns. Brigadier Gen. Chamberlain proceeds with a column in Rohilcund, and afterwards joins Sir Colin at Agra. The Doosa mutineers have entered Assam country. Her majesty's 64th Foot are in pursuit. The conduct of the 31st regiment of native infantry has excited suspicion. Sir Hugh Rose proceeds immediately with a force to the relief of the garrison. The tranquility has been restored. Punjaub and Scinde are all quiet, but strong suspicions are entertained of Kholapoor Rajah's movements. All quiet now. Now depredations by Khanderesh Bheels have been reported, and Hassia and Peloth rebels have been severely handled. A grand entertainment has been given by native gentlemen of Bombay, to all European troops in the garrison.

Australia.

A mail steamer has arrived at Suez with advices from Melbourne to Dec. 10th and Sydney the 11th.

Trade at Melbourne had continued very dull Several failures are reported. Little gold is leaving.

The Bishop of Calputta died third inst.

The Pope has addressed an autograph letter of congratulation to Napoleon.

From Daily News city article. This has been a dull day in stock exchange. Funds experienced very little variation, and closed same as yesterday; but the share market, especially for British railways, was weaker. In stock exchange it was scarcely possible to lend money on government securities at any rate, however low.

France.

The Moniteur of yesterday contains a leading article on the unanimous expression of horror which has been elicited, not only from all parts of France and every class of population, but from foreign ports and nations, and claims the congratulations which the emperor has received as proofs of affection for the imperial family and dynasty, as well as for their majesties personally.

Foreign Markets.

Liverpool, Jan. 30th. The breadstuffs market is generally dull, and all grades show a slight decline. Richardson, Spence & Co's report flour very dull and unsalleable at nominal quotations. Western canal 22s a 23s; Philadelphia and Baltimore 22s 6d a 24s. Corn quiet and steady; mixed and yellow 33s 6d a 34s. Sugar dull. Molasses firm. Coffee quiet. Beef and pork quiet and steady.

SECOND DESPATCH,

From the West.

ST. LOUIS, 13th.

The Santa Fe mail is at hand with dates to the 16th ult. The place was healthy, and business brisk.

The Legislature had adjourned to 8th Jan. Gold mines had been discovered in the vicinity of Fort Fillmore. There had been no palpable demonstration of hostility on the part of the Utah Indians, but the Mormons were evidently tampering with them. The agents of the Government had been instructed to act with caution and liberality towards the Indians and use their utmost endeavors to prevent their alliance with the Mormons.

ST. LOUIS, 13th.

The Santa Fe Gazette advocates the raising of a regiment of mounted riflemen in that Territory for the Utah war, stating, that a march could be made from that point to Salt Lake within 15 days. The Gazette also recommends that reinforcements be sent through New Mexico, describing the route as being good and easier than the Northern, and adds that on the Emperor was there last year, but he passed The Moniteur publishes a decree announcing the

From Washington.

WASHINGTON, Feb. 14.

A majority of the Senate's committee on territories are preparing a report and a bill for the admission of Kansas into the Union under the Lecompton constitution. They are acting without reference to the question of whether the free-state or pro-slavery party has the Legislature and State officers. In deference to Mr. Douglas, the chairman of the committee, who has illness in his family, the report will not probably be made before Thursday, in order to give him time to prepare his dissenting views. Wade and Collamer will unite in a third report.

It is clearly understood that in the event of persistent attempts first to pass the Minnesota State bill, a proposition will be made to unite it with the Kansas measure, that the success of the one may depend upon the passage of the other. Such is the present programme.

At the caucus of the democratic members of the House last night, the debate incidentally involved the Kansas question, but the general sentiment expressed was that the peace and harmony of the Union and States depend on the preservation of the nationality of the democratic party.

The House select committee on Kansas affairs will hold their first meeting on Monday night.

The President has officially recognized George Frederick Darby, as Consul General of Uraguay, resident in New York.

The Union of this morning argues to show that there is no alternative for either the conservative national men of the North, or the Representatives of the South, but in cordial co-operation with each other under a thoroughly organized national democracy, based on the broad principles of the Cincinnati resolves, which renders it impossible that the peace of the country can be longer jeopardized by the sectionalists who have been so long in conspiracy against it.

Additional California News.

NEW YORK, 13th.

The Star of the West from Aspinwall reached her dock at 2 o'clock. She has 219 passengers and one million three hundred and forty-eight thousand five hundred and seventy dollars in specie. The Star of the West left at Aspinwall British ship of the line Brunswick, and U. S. sloop Jamestown. The Golden Age brought down nearly 2,000,000 in treasure, including over half a million for Europe.

The news is unimportant.

On the 8th Gov. Johnson delivered his last annual message. Gov. Weller delivered his inaugural on the same day. He is opposed to all Vigilance Committees, and will put them down.

There was a slave case in Sacramento. A Mississippian applied for legal authority to take a negro, named Archy, who came to California with him back to Mississippi. Commissioner Johnson dismissed the application, he having no jurisdiction, as Archy did not come as a fugitive to the State. The friends of the slave sued out a habeas corpus, but Judge Robinson of Sacramento Co., postponed the decision to the 23d.

The San Francisco News Letter of Jan. 10th says that the past fortnight has been marked by a speculative movement in breadstuffs, the effect of which thus far has been an advance in value of fully $2.50 per bbl. for flour, and 60 cts. per quarter for wheat. No change in other markets.

Democratic Caucus.

WASHINGTON, Feb 13.

The caucus of democratic Senators, held this morning, being an adjourned meeting from Thursday, resolved that to dispose of the army bill, and then to take up the bill for the admission of Minnesota, to which will be offered an amendment to admit Kansas at the same time.

The bill, or amendment to the Minnesota bill, for the admission of Kansas, will contain a provision recognizing the right of the people of that State to change their constitution at any time they please. This proposed clause is intended to meet the objection raised against that provision of the Lecompton constitution which prohibits the change of the constitution till 1864. The bill will pass the Senate by a majority of 8 or 10 certainly.

It is expected the bill will be brought up on Tuesday, and nothing else will be done till that is disposed of.

A democratic caucus met in the hall of the House this evening at 7½ o'clock. John Cochrane of N. Y. was called to the chair, and J. J. Reagan of Texas acted as Secretary.

Mr Stephens of Ga. stated the object of the meeting to be to effect, if possible a concert of action in the democratic party relative to the business before Congress. He moved that a committee be appointed with power to call meetings and attend to business generally.

Speeches were then made by Messrs. Clemens of Va., Taylor of N. Y., Stewart of Md., Caskie of Va., Clark of Mo., Barksdale of Ms., Burnett of Ky., Glancy Jones and Savage of Tenn., in which considerable latitude of debate was indulged in. They discussed the Lecompton constitution, the Pacific R. R. bill, the army bill, and in fact almost every measure before Congress.

Mr Barksdale pitched into the Douglas democrats who were present. He thought no person should be allowed in the caucus who does not intend to be bound by its action.

That caused a little uneasiness on the part of Marshal of Ill., Montgomery and Riley of Ala., English of Ind., McKibben of Cal., and Cox of Ohio.

Mr Marshal desired to explain why he was there, which he was permitted to do, but the caucus did not come to any determination as to what it intended to do in future relative to these gentlemen.

After adopting Mr Stephens' proposition to appoint a committee, &c., the caucus adj.

NEW YORK, 14th.

The Herald learns from Nicaragua, that the treaty between Yrissarri and our Government had been ratified, and also that the treaty between Costa Rica and Nicaragua had been rejected by the first named republic. These events would, it was thought, lead to the renewal of hostilities. There were great rejoicings in Granada on the receipt of the news of the capture, of Gen. Walker by the U. S. Navy forces.

Geo. H. Simonson, a well known citizen of Brooklyn, was probably fatally injured last night in Fulton St., Brooklyn by a slung shot in the hands of some member of Engine Co. No. 5. Patrick Lilly has been arrested, and the police are in search of two others, who were in his company at the time.

DAVIS' PAIN KILLER.—I was attacked with dysentery, and it soon became very distressing. I used this medicine according to the directions, and was cured in three days. My wife was also attacked with pain in the stomach, in consequence of eating too soon after a fit of sickness; she was relieved in a few minutes after taking this medicine. To use her own words, she said she felt the pain remove after she had taken it as quick as you could see a lump of sugar dissolve in cold water. My son was burnt so badly the skin was off. I applied the medicine immediately, and it took out the fire and healed the wound in less time than I ever saw one healed before.—One of my children fell over a chair and bruised its head very bad, but the bruise was soon dispersed by bathing it with this medicine. I will mention one case more of its wonderful effect in curing a wound inflicted by my son's falling out of doors and cutting himself badly; the pain was soon relieved, and the wound healed by this medicine. In fact it is the best family medicine I ever used for the cure of colds, coughs, and a number of other complaints incident to the human family.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY

IS AN ARTICLE THAT EVERY BODY needs who is not in a perfect state of health, for the Liver is second only to the heart in our human economy, and when that is deranged the whole vital machinery runs wrong. To find a medicine peculiarly adapted to this disease has been the study of one of the proprietors, in a large and extended practice for the past twenty years, and the result of his experiment in the Invigorator, as a never-failing remedy where medicine has any power to help it, is now known to all who use it. Almost innumerable certificates have been given of the great virtue of this medicine by those of the highest standing in society, and it is, without doubt, the best preparation now before the public.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to pre pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies, for Six Months $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months, $23.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 600 to 600 finely executed engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

(Sold by Dr. H. A. HARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 10 o'clock in the morning till 2, and from 6 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c., all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *So it is sent cases and divided in separate doses, as advertised* by Valpeau, Lallemand, Roux, Ricord, &c., &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Harrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

THE HANCOCK HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.

In all the principal Cities and Towns, these works will be delivered FREE OF POSTAGE. When sent by mail, the POSTAGE to any part of the United States will be but TWENTY-FOUR CENTS a year for "Blackwood," and but FORTY CENTS a year for each of the Reviews.

N. B.—The price in Great Britain of the five Periodicals above-named is $31 per annum.

BEE CULTURE.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the queen and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

MILLER'S CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature in throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Hoots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clear the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Bots out of a Horse's stomach, and give him a good appetite for his food, and a glossy coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold, at $1800 at four years old.

Brutus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Shoy, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Fiint—St. Johnsbury, Vt., dealer in horses.

Gen. A. Merrill, St. Johnsbury, Vt., Master of Transportation of the Railroad.

H. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We, the undersigned, fully concur in the above recommendation of Miller's Condition Powders:

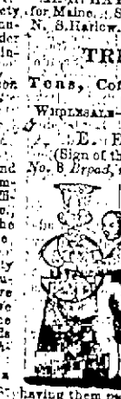
TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.,

WHOLESALE AND RETAIL IN SMALL PACKAGES

E. F. DYER & CO.,
(Sign of the Chinaman grinding Coffee.)
No. 8 Broad, near State Street,.....Boston.



Supply the best, finest and purest articles, at the *lowest Cash prices*. Their Stock consists of

Teas, Coffees Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tamarinds, Concentrated Mustard, Concentrated Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. F. DYER & CO." To give consumers some idea of our assortment, we annex the following scale of prices, viz:

5lb. Bouchong Tea,	1,75 5lb. Mocha Coffee, 1,15
5lb. Oolong Tea,	2,00 5lb. Java Coffee, 1,00
5lb. Y. Hyson Tea,	2,50 5lb. good Coffee, 1,00

The Spices are put up in 1 and 4 lb. tin cases; expressly for family use, and are warranted to be strictly pure articles, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root*. This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article*. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for Fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be adhered by those who do business on the credit system; and we do strictly invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
